Date 5/30/2025
To Whom it May Concern:

Walt Disney has been evaluated for cardiac risk stratification prior to right hip surgery. The patient has been determined to be: moderate **risk** for adverse cardiac events during the procedure. Please note the following recommendations:

1. Antiplatelet: May hold Aspirin 7 days prior to procedure then resume post operatively. OR Continue Aspirin during preprocedural period.
2. Continue Beta-Blocker.
3. Continue her BP meds with sips of water.

Please feel free to call the office for further questions or concerns at 901-763-0200.

Sincerely,

David G Stewart, MD
