

LAKESIDE MEDICAL GROUP - CLINICAL ENCOUNTER NOTE

Patient: Johnson, Robert W. **Date of Service:** 2024-07-02 **Rendering Provider:** Dr. Alice Chen, MD

HISTORY OF PRESENT ILLNESS: Patient is a 49-year-old male with a history of type 2 diabetes mellitus, here for his routine quarterly follow-up. He reports good adherence to his medication (Metformin) and home glucose monitoring. No new symptoms or complaints.

PHYSICAL EXAMINATION:

- Vitals stable.
- Feet examined for neuropathy, no deficits found.
- General examination unremarkable.

ASSESSMENT & PLAN:

1. **Type 2 diabetes mellitus without complications.** Patient's condition is stable and well-managed on current therapy.
2. **Plan:**
 - Continue current medication regimen.
 - A blood sample was collected today for a Hemoglobin A1c test to assess long-term glycemic control.
 - Patient counseled on the importance of diet.
 - Return in 3 months.

SERVICES RENDERED:

- Established Patient Office Visit for chronic disease management, low complexity.
- Routine blood draw via venipuncture.

CHARGES:

- Office Visit: \$125.00
- Venipuncture: \$25.00
- TOTAL: \$150.00
